

# Q2 Spring offers

From sample preparation to analysis, every step matters. We help you streamline your workflow with validated solutions.

**Exclusive Spring offers - valid until June 30.**

## SINGULATOR 200+

Engineered for FFPE. Built for Single-Cell Success.  
Effortlessly automate tissue dissociation

**NEW Launch**

### **Automated FFPE Workflow**

Complete nuclei prep in just 60 minutes

### **High Yield Nuclei Recovery**

Achieve >1M nuclei from most tissue types - including difficult FFPE sample

### **Low Input Requirement**

Obtain nuclei successfully from 2 mg tissue & 50  $\mu$ m FFPE curls

# PCR-instruments on offer!

## 31 500 SEK\*

Excellent temperature accuracy and uniformity  
Gold Service & Support options  
Fast heating and cooling

**Starter pack of compatible PCR plastic included!**  
*Single Tubes/8-well Strips/96- or 384-well Plates,  
Find the most suitable PCR plastic compatible with the thermal cycler!*

Free-Of-Charge  
**STARTER  
PACK**  
consumables

**Several models with a great spring campaign offer:**

Model	Specification	Price
GE-96G*	96x0.2ml, with gradient, CE-IVD	31 500kr
GE-48DG	48x0.2ml, dual block, with gradient, CE-IVD	42 000kr
GE-384G	for 384 well microplate, with gradient, CE-IVD	35 000kr
GE-96S	96x0.2ml, with 6 independent temperature zones, CE-IVD	54 000kr
GE-48D	for 384 well microplate, with gradient, CE-IVD	38 000kr

## INNOVATION FOR YOU

In our life sciences portfolio the quality and affordability can seamlessly merge, providing reliable solutions without compromising your budget.

### FastGene FAS-X GelDoc System

- Unbeatable performance – With any fluorescent dye
- Safe BLUE/Green LED light to protect user and samples
- One light source for DNA, RNA & proteins

Now only  
96 800  
SEK

German Innovation Award WINNER 2024

#### Included Free of Charge:

- 2 x Midori Green Xtra (1 ml)
- 1 x FastGene 100 bp DNA Marker (50 µg / 500 µl)
- 1 x FastGene 1 kb DNA Marker (50 µg / 500 µl)

### Midori Green

- Safe alternative to ethidium bromide: Non-carcinogenic and non-toxic

### FastGene DNA marker

- 50 bp / 100 bp / 1 kb

>30% on all  
Midori green &  
FastGene DNA  
marker

### Bambanker™ Serum-free cryopreservation media

- SECURE SERUM-FREE MEDIUM | No risk of contamination through FBS & consistent product quality
- TIME-SAVING & EASY FREEZING AT -80°C POSSIBLE | No step-wise freezing needed
- HIGHEST CELL VIABILITY & RECOVERY >90% | Keep your cells safe
- GMP QUALITY | Produced in a GMP compliant facility

30% on all  
bambanker  
products

### Easy Flow pipette controller Bundle

- Receive 50 free FastGene® Serological Pipettes; 1 ml, 2 ml, 5 ml, or 10 ml.
- Experience both EasyFlow and the Serological Pipettes together!

Now only  
3 168 SEK

### Great pricing on serological pipettes:

Article Name	Article ID	offer price total	price per unit	MOQ
FastGene Serological Pipettes 50 mL (100)	FG-SP50	739,2	7,392	5
FastGene Serological Pipettes 25 mL (200)	FG-SP25	968	4,84	5
FastGene Serological Pipettes 10 mL (200)	FG-SP10	528	2,64	5
FastGene Serological Pipettes 5 mL (200)	FG-SP05	528	2,64	5

## Pico™ 17 microcentrifuge

- 230V 50/60HZ W ROTOR 24X1 5/2 ML
- Performance up to **17,000 x g** with fast acceleration and deceleration.
- Simplify operation with intuitive controls, easy-to-read displays and fast one-click centrifuge lid closure.

## Pico™ 21 microcentrifuge

- 230V 50/60HZ W ROTOR 24X1 5/2 ML
- Accelerate routine sample preparation with this high speed (up to **21,000 x g**) and generous capacity microcentrifuge.
- Simplify operation with intuitive controls, easy-to-read displays and fast one-click centrifuge lid closure.

## Fresco™ 17 Microcentrifuge with cooling

- 230V 50/60HZ W Dual Row 18 x 2.0/0.5mL rotor with screw-on lid
- Performance up to 17,000 x g with fast acceleration and deceleration.
- Refrigerated versions offer cooling from room temperature to set temperature in as little as 9 minutes.

## Fresco™ 21 Microcentrifuge with cooling

- 230V 50/60HZ W ROTOR 24X1 5/2 ML
- Exceptional acceleration of up to 21,000xg in as little as 12 seconds.
- Refrigerated versions offer cooling from room temperature to set temperature in as little as 9 minutes

# Power Your Workflow:

Start-to-End Solutions for Every Lab...

## ETA-2i, Aspirator with Trap Flask

designed for aspiration or removal of alcohol, buffer and liquid from reaction vessels (e.g. during DNA/RNA purification or other macromolecule reprecipitation techniques)

- Aspiration speed: up to 10 l/min (air)
- Vacuum; -200 to -800 mbar (adjustable)
- Trap flask: 2 l, polypropylene (autoclavable)
- Liquid level sensor type: invasive
- Overflow protection: motor stops, light and sound signal

Now only  
12 575  
SEK

## Mini-shakers (PSU-2T)

- Adjustable mixing of reagents in microplates; 150–1,200 rpm
- Orbit on platform is 2 mm
- The digital LCD display shows the set speed and time; 1 min–24 hrs / non-stop
- Quiet engine operation, compact size, long service life.

Now only  
6 850  
SEK

## Thermo-shakers (TS-100 Smart)

- Quickly reaches the set mixing speed and maintains same amplitude of rotation around the block;
- Stable maintenance of the temperature of a wide range over the entire surface of the block;
- LCD display shows the set and actual temperature, speed and time;
- Quiet engine operation, compact size, long service life.

Now only  
20 250  
SEK
